MERN STACK

DAY – 38

7 August 2026

PROJECT: PARKEASY - PARKING MANAGEMENT SYSTEM

Vehicle Profile

The Vehicle Profile module allows users to add and update their vehicle details. The saved vehicle number and type are automatically used while booking a parking slot.

APIs Used

1. Get Vehicle Details

GET

```
/user-dashboard/:id
```

Purpose: Retrieves the user's profile and registered vehicle details.

2. Update Vehicle Details

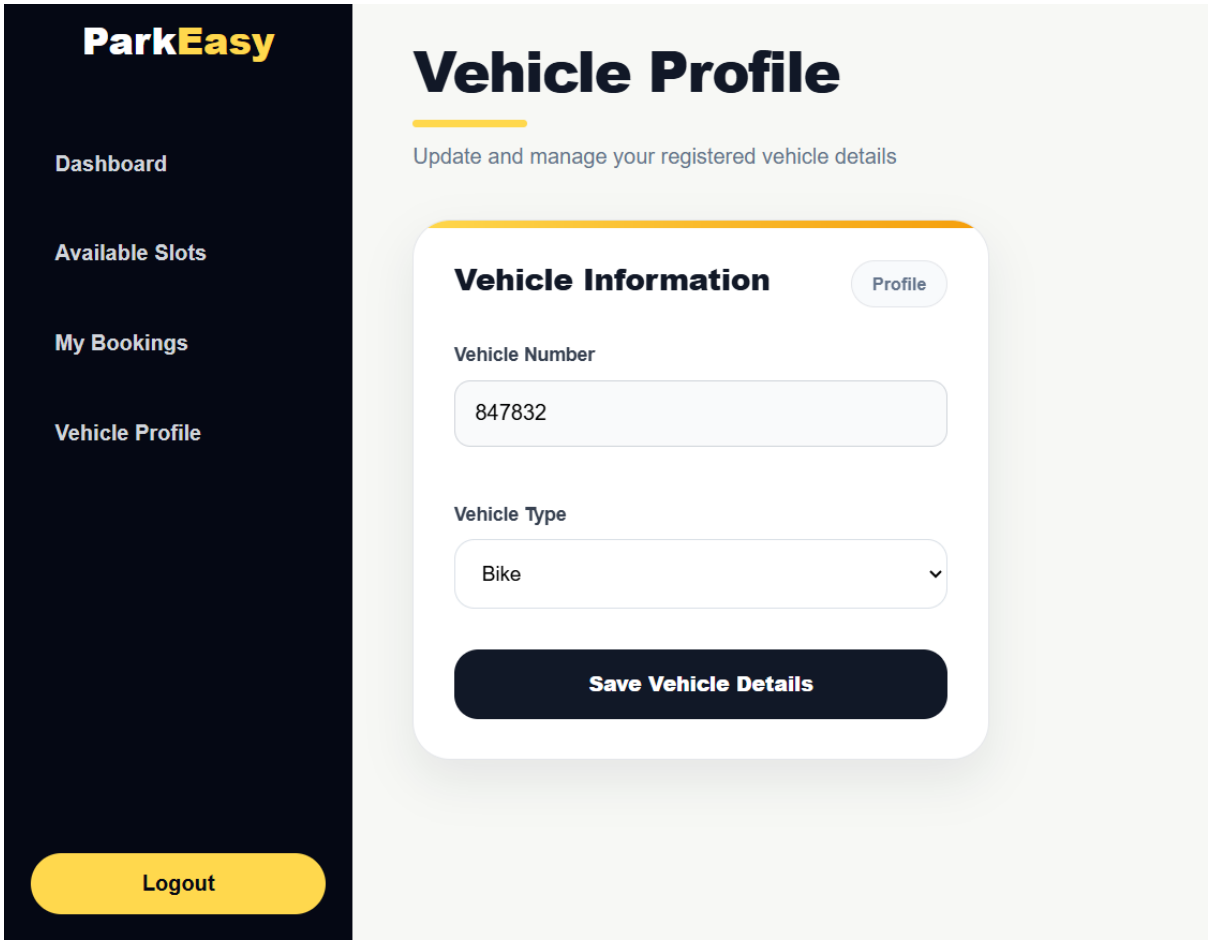

PUT

```
/update-vehicle/:id
```

Request

```
{
  "number": "PB10AB1234",
  "type": "Car"
}
```

Purpose: Updates the user's vehicle information.
